

FD-1010

The FD-1010 is a hand fed, cold compaction densifier utilizing an auger compactor. It is designed to run off standard, single-phase electricity. Capable of processing up to 45 lbs. of EPS per hour and with a small footprint, it is an ideal solution for clients with lower volumes and limited floor space. The FD-1010 densifies expanded polystyrene (EPS) and polyisocyanurate (PIR). All FD Series foam densifiers have passed rigorous air quality testing for health and environmental safety.

Better Densifiers provides equipment financing and leasing programs, as well as a one-year warranty on all parts and labor.
